**Re: Amendment to Third Quarterly Report of
Centennial Communications Corp. on Phase II E911 Compliance**

Dear Messer's Solomon and Muleta:

Centennial Communications Corp. ("Centennial") hereby files this amendment to its Third Quarterly Report detailing our progress in deploying Phase I and Phase II enhanced 911 ("E911") service in our markets. The purpose of this filing is to correct a statement made in our Third Quarterly Report, filed on May 1, 2003 ("May 1 Report"). Specifically, in discussing the status of Phase II deployment in our domestic markets, we reported that we had determined that the Phase II request submitted to us by the PSAP in Lafayette Parish, Louisiana is valid, and that we "have been discussing a mutually acceptable alternative Phase II implementation date, although we have not yet reached agreement on that date." It has come to our attention that this statement is partially inaccurate. The May 1 Report should have stated that as of May 1, 2003, Centennial had determined that the Phase II request submitted by Lafayette Parish was valid, and that we were in the process of contacting Lafayette Parish to propose an implementation timetable that would be mutually acceptable. Centennial is pleased to report that we have initiated discussions with Lafayette Parish, and mutually agreed upon a Phase II implementation deadline of July 15, 2003. In addition, we have committed to Lafayette Parish to use our best efforts to accelerate the July 15 implementation date, and to continue to work with them throughout the Phase II implementation process.

I hereby declare under penalty of perjury that the information provided in this amendment to our May 1 Report is true and accurate to the best of my knowledge, information and belief.
